

Ролдугин Вячеслав Иванович

(ушел из жизни 17 декабря 2017 г.)

Институт физической химии и электрохимии им. А.Н.Фрумкина РАН. Научное направление "Поверхностные явления в коллоидно-дисперсных системах, физико-химическая механика и адсорбционные процессы". Лаборатория физикохимии коллоидных систем, заведующий лабораторией, с 1 января 1974 года.

МГУ имени М.В. Ломоносова, Химический факультет, Кафедра коллоидной химии, профессор, с 1 сентября 2009 года.

Доктор физико-математических наук с 1990 года.

Профессор по специальности физическая химия с 14 декабря 2001 года.

Профессор по кафедре с 18 июля 2001 года.

Также работал в должности старшего научного сотрудника кафедры физики плазмы в Национальном исследовательском ядерном университете "МИФИ".

Вячеслав Иванович Ролдугин написал около 200 статей, 1 книгу, подготовил 72 доклада на конференциях, автор 1 патента. 2 членства в редколлегиях журналов, 11 членств в программных комитетах, 4 членства в диссертационных советах. Под его руководством защищено 10 диссертаций, прочитал 58 учебных курсов.

Ушел невероятно умный и порядочный человек, лучший теоретик-коллоидник страны, который мог учить других понимать эту область.
